

# Relative Light Pollution in the Ottawa-Gatineau Region

## Legend

• Places

## Light Pollution

Low : 0

High : 100

\*Relative values: *The data is based on elevation, light emission and city-building density. These have been normalized and are equally weighted values.*  
Data Sources: Earth Observation Group (NOAA National Geophysical Data Center), NRCAN Opendata (CDEM), Ottawa Opendata, Gatineau Opendata, ESRI  
Map created by: Joachim de Fourestier, Carleton University, December 2016

Coordinate System: NAD 1983 UTM Zone 18N  
Projection: Transverse Mercator  
Datum: North American 1983  
False Easting: 500 000,0000  
False Northing: 0,0000  
Central Meridian: -75,0000  
Scale Factor: 0,9996  
Latitude Of Origin: 0,0000  
Units: Meter
